

## Oxhey Jets Restart Risk Assessment July 2020

Please note this risk assessment should be read alongside the FA guidance @ thefa.com

Area of concern	Risk detail	Risk before mitigation	Risk management	Residual risk
Travel to the venue – transmission of virus while in an enclosed space	Transmission of virus in an enclosed space such as a shared vehicle or on public transport	High	Public transport should be discouraged unless guidelines are followed. Players should travel alone or with house hold members. No coach or member of the team should provide a lift to anyone not in their household. If players do travel together then guidelines open windows etc. must be followed.	Low
Arriving and leaving venue	Large numbers of people arriving at/leaving the venue at the same time likely to prevent adequate social distancing	Med	Clear timetable for training sessions of different teams. Training spread across more than one evening. Timetable should allow for transitions between each training session. Ask participants to arrive shortly before the session starts (not early) and depart promptly when it finishes. Players/coaches to be informed of arrangements for arrival and pick up.	Low
Coach/Player ill health	Coach/Player with symptoms risk of transmission to other club members	Med	Player confirmation to be sent via email agreeing to follow government guidance in relation to symptoms and isolation. Coach to check with all players that they are not displaying symptoms. Any player or coach who falls ill during the session should be removed from training immediately. (If coach needs to leave – another coach should be instructed to manage the group.)	Low
Managing the session	Injury to player as a result of poor fitness/lack of physical activity	Med	<b>All parties to have read relevant FA guidance and confirm this has been read by email</b> Coaches to consider how to manage sessions following an extended period of absence.	Low
	Transmission of virus during session	Med	Players to bring and use own water bottle Players to use hand sanitiser and be reminded to use it. Social distancing must be in place throughout session (no handshakes, hugs, hi 5) Strict adherence to group numbers as approved by FA (including coach) Same group to be in place throughout the session.	Low

	Player requiring first aid – close contact may be required		<p>Limited equipment to be used and cleaned appropriately after the session. Limited handling of any equipment.</p> <p>Areas for each team training at the same time to be agreed in advance Restrict numbers of teams training at one time. Players not adhering to the above will be removed from session and not allowed to return</p> <p>Senior squad – player should be encouraged to administer own first aid. Where support is required PPE should be used (mask and gloves)</p>	Med
Toilets/ Showers	Poor hygiene or overuse of facilities lead to transmission of virus	Med	<p>Discourage use of toilets where possible</p> <p>Designated toilet to be checked prior to session starting and ensure that there is soap and paper towels available Showers if required use as per guidelines on use of changing facilities limit numbers at any one time</p>	Low

Risk Assessment to be amended and reviewed in the light of changing government guidance.
